## OFFICE OF ACQUISITION MANAGEMENT

The Office of Acquisition Management (OAM) develops, coordinates, and maintains the Department's acquisition policies and procedures. OAM manages the acquisition over a range of products and services from purchase card transactions to complex automated systems such as weather satellites. The office manages DoC's acquisition workforce career development, provides acquisition advice, and establishes contracting authority, DoC-wide strategic plans and guidance. It represents DoC in all external acquisition policy matters. OAM, whose director serves as the DoC's Procurement Executive, directly provides acquisition support to OS. The office delivers, maintains, and approves DOC-wide or bureau-specific automated procurement systems and serves as the focal point for the collection and reporting of acquisition information.

OAM's Director exercises operational authority as Grants Officer for designated operating units with financial assistance programs and provides policy oversight for all DoC Federal Assistance programs.

In addition, the OAM develops and maintains DoC-wide acquisition management and performance measurement programs, evaluates and compares contracting office performance against stated goals and advises the Assistant Secretary for Administration on goal achievements. The three project descriptions that follow and the *Department Organization Order 20-26*, governing OAM's responsibilities provide further insight on services provided.

Services also include support for managing acquisition related information technology systems and their support contracts and performance measurement and career management for contracting personnel (series 1102, 1105, and 1106).

**Basis of Charge:** This billing algorithm consists of two parts. (1) Costs for acquisition information technology systems, performance measurement, career management, and procurement innovation efforts are billed to designated operating units and offices based on the number of acquisition personnel employed by each bureau. (2) Costs for procurement services including contract support are billed to each office/operating unit based on the total number of actions performed for each office/operating unit.

## **GRANTS OPERATIONS PROJECT 0440000**

**Description of Service:** The Grants Management Division (GMD) provides financial assistance (grants and cooperative agreements) and operational services for designated operating units (ITA, MBDA, O/S). This includes pre-award review of proposals and award packages submitted by the bureaus, preparation of awards and amendments, financial monitoring, payment processing, audit review and resolution, audit appeal review and resolution, and award close-out. The operating units are responsible for programmatic functions such as formulation of Federal Register announcements of funds availability and application kits, review and selection of grant recipients, and programmatic monitoring of awards. GMD assists with the reporting and monitoring activities related to the DoC's follow-up program required by the Inspector General Act of 1988. In addition, GMD provides policy guidance and support to all Grant-making entities within DoC in compliance with the Federal Financial Assistance Improvement Act of 1999 that improves the effectiveness, efficiency and operational performance of financial assistance programs (PL 106-107).

**Basis of Charge:** The new methodology bases the algorithm on the acquisition model which has both a policy and operations component. The costs for the policy group that is being established to accomplish the multiple initiatives above will be charged based on a percentage of the total grants awarded to all bureaus and O/S (this charge will absorb the past Federal Assistance Awards Data System (FAADS) transaction costs from the old model and is charged to all bureaus and O/S). The remaining costs are the operational costs for servicing ITA, MBDA, and O/S and will be based on the number of active and inactive grants and are only charged to those organizations that are serviced.
